### SURFACE TRANSPORTATION ACT

Mr. REID. Mr. President, what we have just gone through is an effort to bring the highway bill to be closer to the end.

The amendment I have offered does not have in it the Commerce Committee-reported matter. There has been an effort made by members of the Commerce Committee on a bipartisan basis to have another proposal, and that is what is now in this bill. I would hope that will be accepted—I am told it will—when we get back, which will allow us to start legislating, the Monday we get back, on this bill. We have to move to completion.

As I said earlier today, I don't like a lot of the amendments my Republican colleagues have offered, but they have a right to offer amendments. We are going to have to work through these amendments. I hope we can come up with, the day we get back or at least the next day, a list of finite amendments, Republican amendments and Democratic amendments, and work our way through those. We can't have hundreds of amendments, and I hope we can work that down to a reasonable number. Both sides are going to offer amendments. I am sure it won't be a lot of fun, but that is why we are elected—to make tough decisions.

There are some measures we have to vote on that relate to the bill. I know that may sound a little unusual, but there may be some amendments that are germane or relevant to the matter we are considering. We are going to work through those.

I hope we don't have to file cloture on the bill—that would be nice—because this legislation is important because the surface transportation law that is now in effect expires at the end of March. So we have a lot of work to do in a short period of time.

So Senators understand, we have a lot more to do. We not only have to finish this bill, but it is imperative that we bring to the floor the postal reform legislation. It is extremely important. We also have a lot of nominations we are going to have to deal with, and these are the things we have in the short term. The highway bill and the

postal bill are really big, important pieces of legislation.

I would be happy to yield to my friend, the chairwoman of the committee.

The PRESIDING OFFICER. The Senator from California.

Mrs. BOXER. Very briefly, I just want to thank my friend so much. He has a lot of ties to the environment and public works community, and we know every State in the Union is watching us. They want to know that we are going to get our job done on the highway bill. I see Senator THUNE is on the floor. He has been extraordinarily helpful as we have worked our way through this in the most bipartisan fashion.

For people who might be confused with the vote that took place, I just wanted to point out that in the package that was on the floor, what happened was there was a problem in the Commerce Committee. There was a bipartisan problem there which has now been worked out.

So what my colleague has done now is—I ask unanimous consent that I can control the floor for the next 5 minutes.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mrs. BOXER. So what my colleague has done by offering this amendment is to offer now the agreed-upon Commerce package and the agreed-upon bill so that we can finally get started and not have us torn asunder.

It was wonderful to interact with Senator HUTCHISON today because she made her point that she is quite satisfied with the compromise that has been worked out between herself and Senator ROCKEFELLER on the new compromised Commerce piece.

So when we come back, here is where we will be: Senator REID has offered that new package, which is 100 percent bipartisan. I have talked with Senator INHOFE. His staff and my staff are going to be working literally—I don't want to say 24/7; that is an exaggeration, but they are going to be working every day, including the weekends, over this work period to take probably 200 amendments—that is usually what happens in these bills—and try to get a few that are simple, that are not controversial, get those agreed upon on a staff level, and bring them back to a lot of principals. We have a lot of principals in this because we have four committees—all working in good faith, I might add.

So I am excited. I know Senator LANDRIEU is on the Senate floor, and she has been doing a wonderful job with Senator NELSON, Senator SHELBY, Senator WICKER, Senator CARPER, and others, on a bipartisan basis on the RESTORE Act. It is an amendment that has been filed, and I am very hopeful that is the type of thing we can get done with good will here, people willing to not filibuster but agree to 60-vote thresholds, if they have to, with time agreements.
